PATENTS.

AMERICAN AND FOREIGN OFFICE.
AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE,
WASHINGTON,
NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, (generally about 30 per cent, less than those of others in the profession) but avail themselves of the experience of 20 years practice, his visits to the Patent Office an extensive library of legal and mechanical works, and correct account of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar. Assignments recorded at Washington. Patents in Great Britain, France, and other foreign countries, secured through agents of the highest respectability.

R. H. EDDY,
Solicitor of Patents.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.

"AUGUST 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Sept 12 1855. Commissioners of Patents.

Being convenient and agreeable in its use, experience has proved that it retains in every climate its desirable and truly valuable character. It is in the form of a paste, is tasteless, and does not impair the digestion. It is prepared with the greatest possible care, upon well tested principles. To persons following the sea, or going long voyages this preparation possesses qualities far surpassing any other—neat and portable in its form, speedy and efficacious in its operation, successful both in the earliest and worst stages of the severest diseases, whilst the usual and nauseous taste and unpleasant odor to copaiba is wholly avoided in this preparation,

Prepared and sold wholesale and retail, by JOHN A. TARRANT, successor to James Tarrant, 278 Greenwich street, corner of Warren, New York; and for sale by the principal Druggists in the United States, British Provinces, West Indies, and South America.

THORN'S Compound Extract of Copaiba and Sarsaparilla possesses a few advantages not enjoyed by any other medicine for the cure of sexual diseases; and which must, with an enlightened public, render it assuredly highly popular, and a desideratum long sought for in the medical world. It needs no confinement or change of diet. In its approved form, that of a paste, it is entirely tasteless, and causes no unpleasant sensation to the patient.

It has acquired the utmost fame in almost every part of Europe; it has been examined, approved of, and sanctioned by the faculty of medicine, and recommended by the most eminent of the profession. Prepared by J. B. THORN, Chemist, London, and for sale wholesale and retail, by J. A. TARRANT, sole agent for the United States, 278 Greenwich street, New York

THE CHARACTER AND MEN OF NEW YORK, THE METHOPOLIS OF NORTH AMERICA.—One of the duties of the Press is to protect the public from imposition, by teaching true principles. Public feeling and sympathy are justly and humanely excited on account of the dreadful ravages of pestilential disease in our neighboring cities. Yet, by Consumption, more lives are sacrificed annually than Yellow Fever destroys in ten years. Pestilential diseases concentrate their death-dealing energies in comparatively single, insolated localities; while Consumption so noiselessly sends its untiring shafts here and there, promiscuously throughout all the busy walks of life, that those who, by the wayside, fall [illegible] often seen asked, is Consumption curable? To learned and experienced physicians we must look for an answer to the important inquiry.—Laennec and Louis of France, Carswell and Stokes of England, as well as many others of the United States, are among able writers on Diseases of the Lungs and Chest, who answered the question unequivocally in the affirmative.

The opinions of great men on any point are entitled to our respectful consideration; but when men of distinction give their opinion on a subject which they have made their constant study for ten, or a score or more years, that opinion, to a great extent becomes an established fact.

There are to be met daily, instances of living, robust and healthy persons who have been cured of early and serious attacks of Consumption.

There are many valuable members of the medical profession, which are going the rounds of an arduous practice, who have been snatched from the jaws of that vornacious monster, Con-sumption.

In this city we believe Dr. HEATH, of No. 350 Broadway, is one of the most successful practitioners in the cure of Lung and other Chronic diseases, for the reason that we have known him a long time and he has cured a number of our acquaintances.

He was a student and an associate of Professor John De La Mater, one of the most eminent practitioners and lecturers this country has yet produced, filling at various times and in several Medical Colleges all the different chairs of professionships. He also enjoys the honor of having been the first Professor who taught auscultation and percussion, or the only certain method of ascertaining correctly the diseases of the Lungs and Chest. Dr H. was a graduate of the University Medical College of this city, some twelve or fifteen years ago. He is also an uncompromising enemy of quackery and all its auxiliaries; and he is especially caustic in his denunciations against Specifics, Patent Medicines, Patent Shoulder Braces, Abdominal Supporters and all other useless and injurious traps, trammels and nets for catching the hard-earned money of the credulous.

Dr. Heath is devoting all his energies to the treatment of Consumption, Diseases of the Throat, Lungs, Heart, Chest, and all Chronic Diseases of both sexes. Having successfully used Inhalation for many years, he regards it as a valuable aid in the treatment of affections of the Lungs, but not a specific one, when used alone, by any means.

The Lungs, the Skin, the Stomach, and Bowels, are all alike mediums through which the system is brought under the influence of remedial agents in the cure of disease. The Doctor's motto is "Candor and Honesty."—New York Day Book.

MORMON COSTUME.—The ladies of Utah have adopted a new costume, which seems to be gradually increasing in favor. It consists of a loose flying dress, resembling in cut, a man's sack coat, being buttoned in front, and reaching a few inches below the knees, a pair of pantaletts adorning the head, being in fact a modification of the Bloomer costume. The ladies are thus relieved of a superabundant load of petticoats; and their husbands are freed from paying for more than two thirds the usual quantity of dry goods.

This, perhaps, will answer very well among the Mormons where a man is allowed to have any number of wives that fancy may dictate and his purse support.

CURIOSITY AND ITS CONSEQUENCES.—A Lodge of I. O. O. F., at Woodstown, determined to have their lodge room done up clean and nice; it was resolved unanimously that Mrs. K. should be employed to do the job.

After the meeting adjourned, the Guardian, who knew the inquisitive character of Mrs. K., procured a billygoat, and placed him in a closet that was kept as a reservoir for the secret things. He then informed the lady of the wishes of the Lodge, and requested her to come early next morning, as he would then pe at leisure to show her what was and what was not to be done.

Morning came, and with it Madame K., with her broom, brushes, pails, tubs, &c., prepared and armed for the job, and found the Guardian waiting for her.

"Now Madame," said he, "I tell you what we want done, and how we came to employ you. The brothers said it was difficult to get anybody to do the job and not be meddling with the secrets in that closet; we have lost the key, and cannot find it to lock the door. I assured them that you could be depended on."

"Depended on!" said she, "I guess I can. My poor dead and gone husband, who belonged to the Free Masons, or Anti-Masons, I don't know which, used to tell me all the secrets of the concern, and when he showed me all the marks the gridiron made when he was initiated, and told me how they fixed poor Morgan, I never told a living soul to this day; if nobody troubles your closet to find out your secrets till I do, they'll lay there till they rot—they will.

"I thought so," said the Guardian, "and now I want you to commence in that corner and give the whole room a decent cleaning, and I have pledged my word and honor for the fidelity to your promise. Now, don't go into that closet," and left the lady to herself.

No sooner had she heard the sound of his feet on the last stairs than she exclaimed. "Don't go into that closet! I'll warrant-be-bound. I will just take one peep and nobody will be any wiser, as I can, keep it to myself."

Suiting the action to the word, she stepped lightly to the forbidden closet, turned the button, which was no sooner done than bah! went the billy goat with a spring to regain his liberty, which came near upsetting her ladyship. Both started for the door, but it was filled with implements for house cleaning, and all were swept clear from their position down to the bottom of the stairs.

The noise and confusion occasioned by such unceremonious coming down stairs, drew half the town to witness Mrs. K's effort to get from under the pile of pails, tubs, broom, and brushes in the street.

Who should be first to the spot but the rascally door keeper, who, after releasing the goat, which was a cripple for life, and uplifting the rubbish that bound the good woman to the earth, anxiously inquired if she had been taking the degrees?

"Taking the degrees!" exclaimed the lady, "if you call tumbling from the top to the bottom of the stairs, with the devil after ye, taking things by degrees, I have them, and if ye frighten folks as ye have me, and hurt them to boot, I'll warrant they'll make as much noise as I did."

"I hope you did not open the closet, Madame," said the doorkeeper.

"Open the closet? Eve ate the apple she was forbidden! If you want a woman to do anything, tell her not to do it, and she'll do it certain. I could not stand the temptation. The secret was there—I opened the door, and out popped the turnal critter right into my face. I thought the devil had me, and I broke for the stairs, with the devil butting me at every jump I fell over the tub and got down stairs as you found us, all in a heap."

"But Madame," said the doorkeeper, "you are in possession of the great secret of the Order, and must be initiated, sworn, and then go in the regular way."

"Regular way!" exclaimed the lady, "and do you suppose I am going near the turnal place again, and ride that ar critter without a bridal or saddle? No never! I don't want nothing to do with the man that rides it. I'd look nice perched on a billy-goat, wouldn't I? No, never; I'll never go nigh it again, nor your Hall nuther. If I can prevent it, no lady shall ever join the Odd Fellows. Why, I'd sooner be a Free Mason, and be broiled on a gridiron as long as fire could be kept under it, and pulled from gurret to cellar with a halter, in a pair of old breeches and slippers, just as my poor dear husband was. And he lived over it, but I never could live over such another ride as I took to-day."

WIDOW BEDOTT'S PAPERS.—After Parson Sniffles married the Widow, in expectation of finding her possessed of riches, finds like many a poor mortal, that they had never had a real existence. Mrs. Sniffles has been urging him to "fix up" the parsonage:—

"But recollect, Mrs Sniffles, this house is a parsonage,—I occupy it rent free."

"I dont care if 'tis a parsonage. I say the congregation might afford you a better one, and for my part I'm disposed to make a fuss about it."

"Mrs Sniffles, you must be aware that I am not possessed of inexhaustible means. I have never attempted to conceal from you the fact—therefore, you must also be aware that there exists an entire impossibility of my erecting a new residence on the plan which you propose. Nor is it all probable that the congregation would be willing to make such alterations in this as you suggest. Yet, I assure you that I have not the slightest objection to your emyloying your *own* means in the construction of a more elegant edifice."

"My own means!"

"Yes, Mrs. Sniffles. Your dissatisfaction with the parsonage is so great, that I have for some time past been expecting you would propose building a new residence; and I repeat that such an appropriation of a portion of your funds would meet my concurence."

"My funds!"

"Your funds, Mrs. Sniffles. It is a delicate subject and one on which I have hitherto hesitated to make inquiry, although possessing an undoubted right to do so.—I have been expecting, ever since our union that you would inform me how and where your property is invested."

"My property!"

"Your property, Mrs. Sniffles. In what does it consists, if I may be permitted to enquire?"

"Land o' liberty! you know as well as I dew."

"What am I to infer from that observation?"

"Jest what you're a mind to. I aint worth money, and I never said I was."

"Mrs. Sniffles, you are well aware that on your arrival in this place, common report pronounced you to be an individual of abundant means, and I have always labored under this impression—an impression which, allow me to remind you yourself confirmed in a conversation which occurred between us in the parsonage grove."

"You don't mean to say't I *told* you so, and you darsent say't I did."

"A-hem—I mean to say that you did not deny it when I delicately alluded to the subject. On the contrary you led me to infer that such was the fact, and under that impression I was induced to accede to your [illegible] proposal." What do you mean to inciniwate,'

"I should have said your—your—evident inclination for a-a-mattrimonial engagement. I deeply regret, Mrs. Sniffles that you should have allowed yourself to practice upon me what I cannot consider in any other light than that of a heinous and unmitigated deception. I regard it as an act quite incompatible with your religious profession."

"You dew, hey? well you can't say I ever told you out and out that I was worth property; and if you was a mind to s'pose so from what I did say, I'm sure taint my fault, nor I ain't to blame for other folkses saying I was a rich widder."

"Mrs. Sniffles, I lament exceedingly that you should view it in that light. You can but acknowledge that it was your duty when I requested information on the subject, to have given me a correct account of your property."

"I had'nt no property to give ye an account of."

"You should have told me so, Mrs. Sniffles, and not have suffered me to infer that you was in easy circumstances."

"I tell ye again, I couldnt help what you inferred, and s'posen I could, which was the most to blame me for letting you think I was rich, or you for marrying, me because you thought I was rich? For my part, I think that was rather incompatible with your professions. Ministers had ought to have had their affection set above transitory riches."

"Mrs. Sniffles, this is a-a delicate subject, we will waive it, if you please."

"But I think the congregation ought to fix up the house."

"I will lay it before the session, at the next meeting."

"Well, dew, for pity's sake. And if they agree to fix it, I'll go a journey somewhar while it's a bein altered, and you can board round, and Sal can stay at sister Magwire's."

—Another bridal! The Hon. George E. Pugh, U. S. Senator from Ohio, was married to Miss Therese Chalfant, of Cincinnati on Thursday. Miss Chalfant is sister to the Hon. Mrs. Marshall, now of California, and when in Washington a few winters since was the acknowledged belle of the entire season. By many she is considered one of the most brilliant and beautiful woman in this country.

Fifteen or twenty young men left Mobile recently for the purpose of casting their fortunes in Central America. They will proceed to Greytown and examine the inducements offered by the Kinney settlement.

MIND YOUR STOPS. "A compositor's blunder has ruined many a finely-turned passage, both in poetry and prose;" but how often does the blunder arise, not from the compositor's but from the writer's own ignorance of the commonest principles of punctuation. Great writers profess to despise punctuation, and hold it to be a mere mechanical process, fit only to be performed by the readers of the printing office. But how often does the very meaning of a sentence depend upon the accurate placing of a comma or colon? How may a misplaced hyphen or note of interrogation mar the choicest passages of reasoning or eloquence.—*London Literary Journal.*

Holloway's Ointment and Pills, a wonderful Cure of Ulcers in the Leg.—Frederick Iliff, of Houston, Texas was afflicted for eight years with seven ulcers in the leg, the keys of a flute, which discharged continuously and rendered his life one of the greatest wretchedness and misery; many remedies were tried in vain; he became worse; at last he had recourse to Holloway's Ointment and Pills, and by persevering with these remedies in accordance with the printed directions for nine weeks, he was radically cured, and is now able to walk better than ever he was in his life.

A letter writer from Cincinnati says that the common people of that city are those who kill pigs now. The aristocracy are those whose father killed pigs, and who of course regard the present piggicides as persons without honorable antecedents. Touch the question of pigs to them, and they bristle up immediately.

"A thing of beauty
Is a joy forever."

So sang the gifted poet Keats. What can be more beautiful than a fine head of hair, that noblest of nature's adornments. Who that is young, but values the luxuriant locks of youth, and would preserve them; and who that is old but would commend Lyon's Kathairon universally acknowledged to be the most valuable and the most delightfully perfumed toilet article ever prepared. Be sure and ask for Lyon's Kathairon, to guard against the valueless imitations and counterfeits, which have lately been put up under somewhat similar names. Sold everywhere for only 25 cents per bottle.

NOTICE.

AT the request of Perry Brown, I make the following statement,—

On or about the middle of last month, seven boxes were ordered to be shipped from this city, addressed to "A M. Drummond, 14 Barclay street, Philadelphia."; one of them containing valuables to the amount of $700, and has never been received or heard from.

Understanding that a report is in circulation that Perry Brown, of this city, was implicated in the loss of said box, I hereby fully excuse him from such a charge, as we have no reason to suspect that he was at all cognizant of the affair, or that said box was ever in his possession. I have nothing in this or any other matter to induce me to believe that Perry Brown would be guilty of such a crime as detaining the property of others.

MARVELLOUS REMEDY!
FOR A MARVELLOUS AGE!!

HOLLOWAY'S OINTMENT.

THE GRAND EXTERNAL REMEDY.

By the aid of a microscope, we see millions of the openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the heart, Inflamation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any living or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

ERYSIPELAS, SALT RHEUM and SCORBUTIC HUMORS.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume as this Ointment. No case of Salt Rheum, Scurvy, Sore Head, Scrofula, or Erysipelas, can stand against its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals disposing this Ointment giving advice as to its application and has thus been the means of restoring countless numbers to health.

SORE LEGS, SORE BREASTS, WOUNDS AND ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment when baffled to cope with the worst cases of sores, wounds, ulcers glandular swellings, and tumors. Professor Holloway has by command of the Allied Governments, dispatched to the hospitals of the East large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 40 years, standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bunions	Piles	Sprains	
Burns	Rheumatism	Scalds	
Chapped hands	Salt Rheum	Swelled Glands	
Chilblains	Skin Diseases	Stiff Joints	
Fistulas	Sore Legs	Ulcers	
Gout	Sore Breasts	Venereal Sores	
Lumbago	Sore Heads	Wounds of all kinds	
Mecurial Eruptions	Sore Throats		
	Sore of all kinds		

Sold at the Manufactories of Professor HOLLOWAY, No. 80 MAIDEN LANE, New York and 244, Strand, (near Temple Bar, London, and by all respectable Druggists and Dealers of Medicine throughout the United States and the civilized world in Pots, at 25 cents, 62 1-2 cents, and $1 each.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. n16ly

PROFESSOR WOOD'S
HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress. The following is from a distinguished member of the medical profession:

St. Paul, January 1, 1855.

Prof. O. J. Wood,—Dear Sir—Unsolicited, I send you this certificate. After being nearly bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced on hearing of yours, to give it a trial. I placed myself in the hands of a barber, and had my head well rubbed with a good stiff brush, and the Restorative then applied and well rubbed in, till the scalp was all a glow. This I repeated every morning, and in three weeks the young hair appeared, and grew rapidly from August last up to the present time, and is now thick, black, and strong—soft and pleasant to the touch, whereas before it was harsh and wiry, what little there was of it and that little was disappearing rapidly. I stil use your Restorative about twice a week, and shall soon have a good and perfect crop of hair. Now I have read of these things—and who has not?—but have never seen hitherto, any case in which any person's hair was really benefitted by any of the hair tonics, &c., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it already has a large and general sale throughout the Territory. The people here saw its effects, and have confidence in it. All who have used it here, will coincide with me in what I have written. The supply you sent us, as the wholesale agents for the Territory, is already exhausted, and daily inquiries are made for it. You deserve credit for your discovery. I for one return you thanks for the benefit it has done me, for I certainly had despaired long ago, of ever effecting such result. I congratulate you that your fortune (and a large one) is already made.

Yours, hastily,
J. W. BOND,
Firm of Bond & Kellog, Druggists, St. Paul, [M. T.

Brookfield, Mass., Jan'y 12th, 1855.

Prof. Wood,—Dear Sir,—Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant itching with which I have been troubled from childhood, and has also restored hair which was becoming gray, to its original color. I have used no other article with anything like the pleasure and profit.

Yours truly,
J. K. BRAGG,
Pastor of the Orthodox Church, Brookfield,

CORRECT TIME.

A GREAT divesity of opinion existing in regard to what is correct time, and many being misled by the false representations of the new clock recently erected at the expense of the State, in the State House in this city, have induced the undersigned for the purpose of furnishing correct standard Time, to use extra exertions to secure that object. He has placed in his Fancy Goods and Jewelry establishment, a Regulator of exquisite workmanship and undeviating in performance, which will, at all times, show the accurate standard mean time, as promulgated by daily observations at Brown University and the Observatory at Cambridge, Mass. The mails close, and the Steamboats and Railroads throughout New England are governed by this time.

BLACK Alpaccas, extra quality, just rec'd by LANGLEY & NORMAN.

THE Burglar's Alarm and Physician's Night Bell and Lamp!—This instrument, patented August 21, 1855, is simple and certain in its operation, and gives security against the depredations of burglars. An attempt to open any door or window connected with this apparatus, will cause an alarm loud and long, to be rung, and a common hand lamp to be lighted at the same instant. The burglar, frightened at the alarm he has raised, will hastily abscond, even before an actual entrance is made.

Physicians and Apothecaries will also find the article of great utility For such purposes, it is operated by a bell-pull at the street door, and will save the expense and convenience of a constantly burning light.

When compared with other instruments invented for the same purpose, this alarm is admitted to be vastly superior, both as to the efficacy of the alarm, and the certainty of ignition.

THE GREATEST WONDER OF THE AGE.

A REMEDY Which CURES IN FIVE MINUTES. — M. LEROUX'S French Cholera Cognac Bitters.—This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt the best, most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemest and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them. S. STEINFELD.

SOAP! SOAP!!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recommendations. A fair trial is all I ask. These soaps do the work of the Laundry in the best manner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these soaps is to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap freely on all soiled spots, make a strong suds in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully bleached.

Calicoes and other colored articles, wash without soaking and rinse.

Woolens—Wash in warm suds (to prevent shrinking) and rinse.

Merinoes, Silk Velvets, Silks, Ribbons, &c. Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the soap on freely, soak some time in strong suds, rub out and rinse. Ink spots and stains, use full strength, soak, and wash in hot water.

Gilding and Mahogany.—Wash in weak suds, rub with silk cloth and rinse. Paint, wash in strong suds.

For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and for sale wholesale and retail, by

SPRATT'S LIGHTNING RODS!

WITH branched and other poits made of pure copper and gilded with fine gold, all of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of Cast Iron, and sold last year by some dealers in Lightning Rods.

Also, Fixtures for a new and valuable improvement in applying Insulators by which the glass is kept dry, causin no leaks in roofs of buildings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the seen.

The following recommendations have been furnished gratuitously—

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever scene.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

B. SILLIMAN, Jr.
Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.
